Species	Date(s) Observed	Spawning	Rearing	Migration
Coho Salmon	9/3/84		✓	
Cutthroat trout	9/3/84		✓	
Dolly Varden	9/3/84		✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

3 traps were set well above the intertidal zone for Sominus.
 and caught 5 DV, 4 CO, 1 CT and 4 cottids. The stream was
 walked approx. 800m. Trout fry were common throughout the
 survey. This stream merges with 115-34-10210 in the
 intertidal zone. The banks ~~are~~ consisted largely of blue clay.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
