Change to _____ Atlas
_____ Catalog
✓ Both

Species	Date(s) Observed	Spawning	Rearing	Migration
Dolly Varden	7-25-84		✓	
Coho Salmon	7-25-84		✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Three baited minnow traps set for 2hrs. 15mins caught 57 DV, 20 co. This stream was probably a braid of the Taiya River at one time. A dike constructed to protect the Taiya bridge cut off any glacial water. The water is now clear and slow moving providing excellent rearing habitat.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Randolph Ericksen
