COMMERCIAL FISHERIES STATISTICAL DISTRICT AND SUBDISTRICT IN WHICH WATERBODY IS LOCATED: 106-43

LIST OF SPECIES OBSERVED (include any anadromous fish)

SPECIES	DATE(s) OBSERVED	APPROXIMATE NUMBERS	LIFE STAGE(s) (egg, fry, smolt, adult)
Coho	8/16/85	50	fry and rearing fish
<i>add stream #</i>	<i>106-43-10345</i>		

Comments/Diagrams (Please indicate where in the stream fish were observed, e.g., "10 miles above Delta Junction," "3 river miles south of confluence of Yukon and Porcupine Rivers," etc. Provide additional clarifying information such as "provides limited spawning area," "excellent rearing area," etc. Please use the back of this form if more space is required).

Many rearing coho were observed in this small estuary. No spawning area was available in the intertidal area although a small tributary stream to the estuary would provide adequate spawning area, especially at higher discharges. The water in the stream is quite dark and no rearing fish could be discerned during a quick hot sun

NAME OF OBSERVER (print) Craig Burns SIGNATURE Craig A. Burns
