Species	Date(s) Observed	Spawning	Rearing	Migration
Steelhead (SH)	1983	✓		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Steelhead were observed passing through the Montana Cr. weir based just above the confluence with the Mendenhall R.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
