TJB 10-16-85
Drafted

Species	Date(s) Observed	Spawning	Rearing	Migration
Pink	8/28/85	✓		
Chum	8/28/85	✓		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Aerial Survey of South Fork from canyon to confluence with Cowee Cr. showed 540 dead salmon mostly pinks with some chums also guessed that there were at least 230 live fish in the South Fork

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Mark C. Anderson
