Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

surveys concentrated on lower stream early and upper stream later. The entire stream was surveyed. Spawning sockeyes were only obs just above bridge, low water impeded migration of salmon farther upstream

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
