Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Rearing: coho were abundant in this small stream. Substrate suitable for coho spawning use was also present. Coho use may well extend beyond sample point as no barriers were observed.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
