Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho	7/6/86	excellent spawning area available	X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Excellent spawning and rearing habitat was found on this stream. Abundant rearing coho were observed. No barriers were observed and coho usage probably extends beyond the sample point. Steelhead probably range to this point also.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Craig Burns

Date: 7/11/86 Signature: Craig A. Burns

Address: ADF+G Box 667
Petersburg, AK 99833

Signature of Area Biologist: Don Cornelius
