Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

I observed up to 12 # rearing coho fry in the larger stream and 3 rearing coho fry in the shorter stream shown on the map. Jim Franzell of USFS reports 25 spawning coho in larger stream several years ago

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
