Richard Reed 9/3/87
Regional Supervisor Date

SGS 11/17/87

FI 11/12/87
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
COHO SALMON	10/2/86		✓	
DOLLY VARDEN	10/2/86		✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

The first two tributaries (to Mendenhall Lake) with bridge crossings on the West Glacier Trail were minnow-trapped and juvenile coho salmon and dolly varden char were captured.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) KRISTEN M MUNK

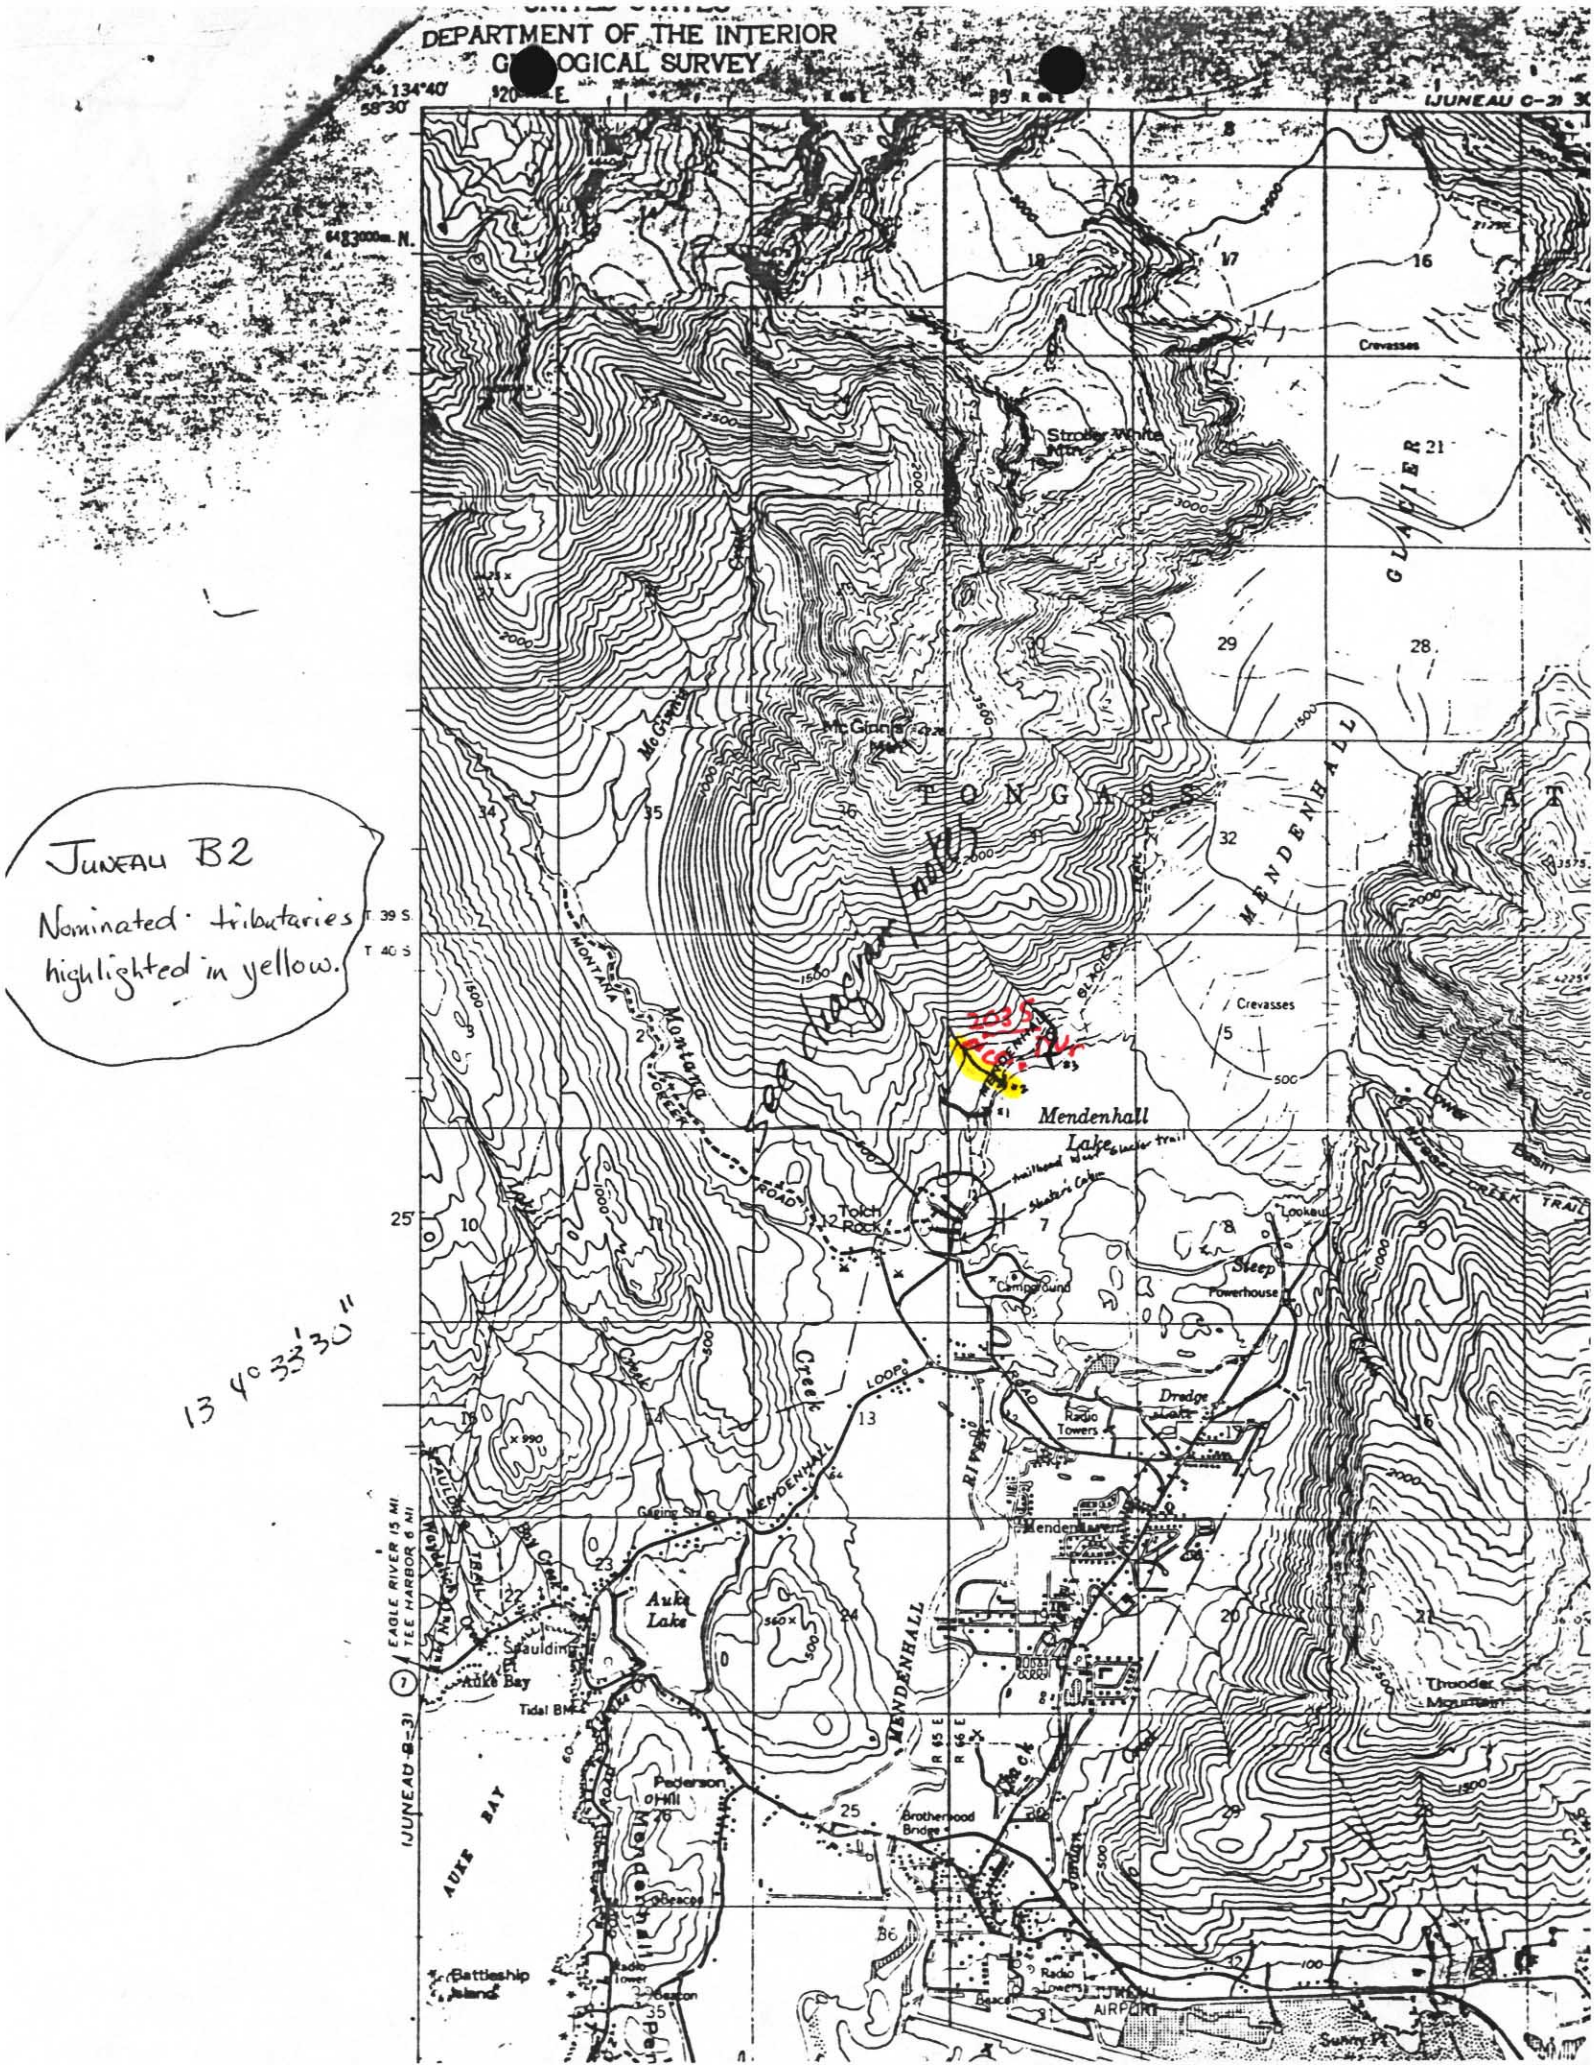
Date: 9/2/87 Signature: K M Munk

Address: ADF&G - SPORT FISH

BOX 20 DOUGLAS, AK 99824.

Signature of Area Biologist: Janet Elizabeth Hall

Note: I have seen fish in these streams in



Juneau B2

Nominated tributaries highlighted in yellow.

13 40 33 30 11

October 2, 1986 Mendenhall Lake - West Side tributaries

Low overcast, heavy rains for a day; tribs are swollen.

Traps set @ 0940
pulled @ 1300

Trib #1 Walk to the first bridge encountered on the West Glacier Trail. Water is swift. Fine habitat!
28 SS, 7 DV

Trib #2 Second bridge on West Glacier Trail. Water swift.
3 SS, 1 DV

Trib #3 Water is too swift to trap effectively.

A tributary crossing the road just past the Skater's Cabin was observed to have a dozen or more coho fry. From the road, on the uphill side it looked muskegy. Below the road the trib drains into the lake 30' away. This trib was to have been dug for a new culvert that afternoon. } previously nominated
