 Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho salmon	10/12/88			X (1)
Chum salmon (carcasses)	10/12/88	(Post-spawned)		
Pink salmon (carcasses)	10/12/88	(Post-spawned)		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

One adult coho salmon (live) was observed at the lower end of this stream. Approximately 14 chum and pink salmon carcasses and bony remains were observed upstream ^{along} some 700 feet of stream from the point where this stream enters mainstem Coco Harbor Creek (Str. # 103-40-10670). The upper extent was marked by subterranean flow bubbling up. Isolated water pockets were observed upstream. ^{See attached map.}

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
