Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Forest Service trapped stream with past year and found coho above barrier.
Coho juv. also observed above road crossing on 8-30-89. In August
1989 the Forest Service accomplished a barrier modification project
to improve to pink, chum, and coho access to all upstream tributaries

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
