Nomination #	<u>90</u>	<u>21</u>
<u>Richard Reed</u> Regional Supervisor		Date
<u>SIB</u>		<u>12/1/89</u>
<u>FI</u> Drafted		<u>11/9/89</u> Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho	6/14/89		X	X
Cutthroat	"		X	X

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Captured 1 CO, 2 CT in 25 min. using 3 baited minnow traps. Inlet stream flowed clear, with 6 ft. avg. width & possible spawning habitat, mod-low gradient. Lake Ellen provides good rearing habitat. As Lake Ellen was not previously cataloged, it would presumably be #0010 and Lake #3 (further upstream) would be changed to -0020. (See attached map). T. 72S, R. 84E, S. 17/18

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
