Species	Date(s) Observed	Spawning	Rearing	Migration
CO	6-13-89	x	x	x
DV	6-13-89	x	x	x
SH	6-13-89	x	x	x

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Scenic area with big trees & lakes, recently entered for logging (1988) Includes two forks of stream, both of which drain lakes to north, and one fork going south (much smaller). Another small coho trib has been felled into by loggers and yarded through. (Trashed & CMP on road is perched). Trees fallen into parts of main tributary, with cutting to the banks. Deposition of small woody debris and slash into stream. Excellent habitat, but heavily impacted!

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
