Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Numerous floodplain channels (braided & tributaries) and side sloughs are also considered to be a part of this cataloging effort. Very productive spawning and rearing habitats throughout floodplain. Large, productive system. May be exceptional for steelhead production. Barrier falls in canyon about 1½ mi. upstream from lake. Recent research shows this is a major steelhead producing tributary of the Karta.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Jack Gustafson, Steve Hoffman

Date: 6-22-89 Signature: Jack Gustafson, Steve Hoffman

Address: ADFG
Ktn.

Signature of Area Biologist: Jack Gustafson

* Named for Senator Tim Wirth of Colorado, Sponsor of Tongass reform legislation which recognizes the habitat values of the Karta System.
