Species	Date(s) Observed	Spawning	Rearing	Migration
CO	6-16-89		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc. South of Klawock airport.
Marshy beaver dam habitat; appears to enter salt water at Bennett Creek estuary, but stream was not walked this far down. Coho captured was smolt-sized or larger. Stream goes behind the SW corner of Klawock airport developments.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
