Nomination #	<u>90 174</u>
<u>Richard Reed</u> Regional Supervisor	<u>10/9/89</u> Date
<u>SFS</u>	<u>11/28/89</u>
<u>FI</u> Drafted	<u>11/14/89</u> Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Chum Salmon	8/24/89	✓		
Pink Salmon		✓		
Dolly Varden			✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

This stream appears to be fed from upwelling ground water from the Taiga River. The stream provided excellent spawning habitat for Chum and Pinks. Hundreds were observed in the stream. Dolly Varden fry were observed and ~~trap~~ netted in the stream.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

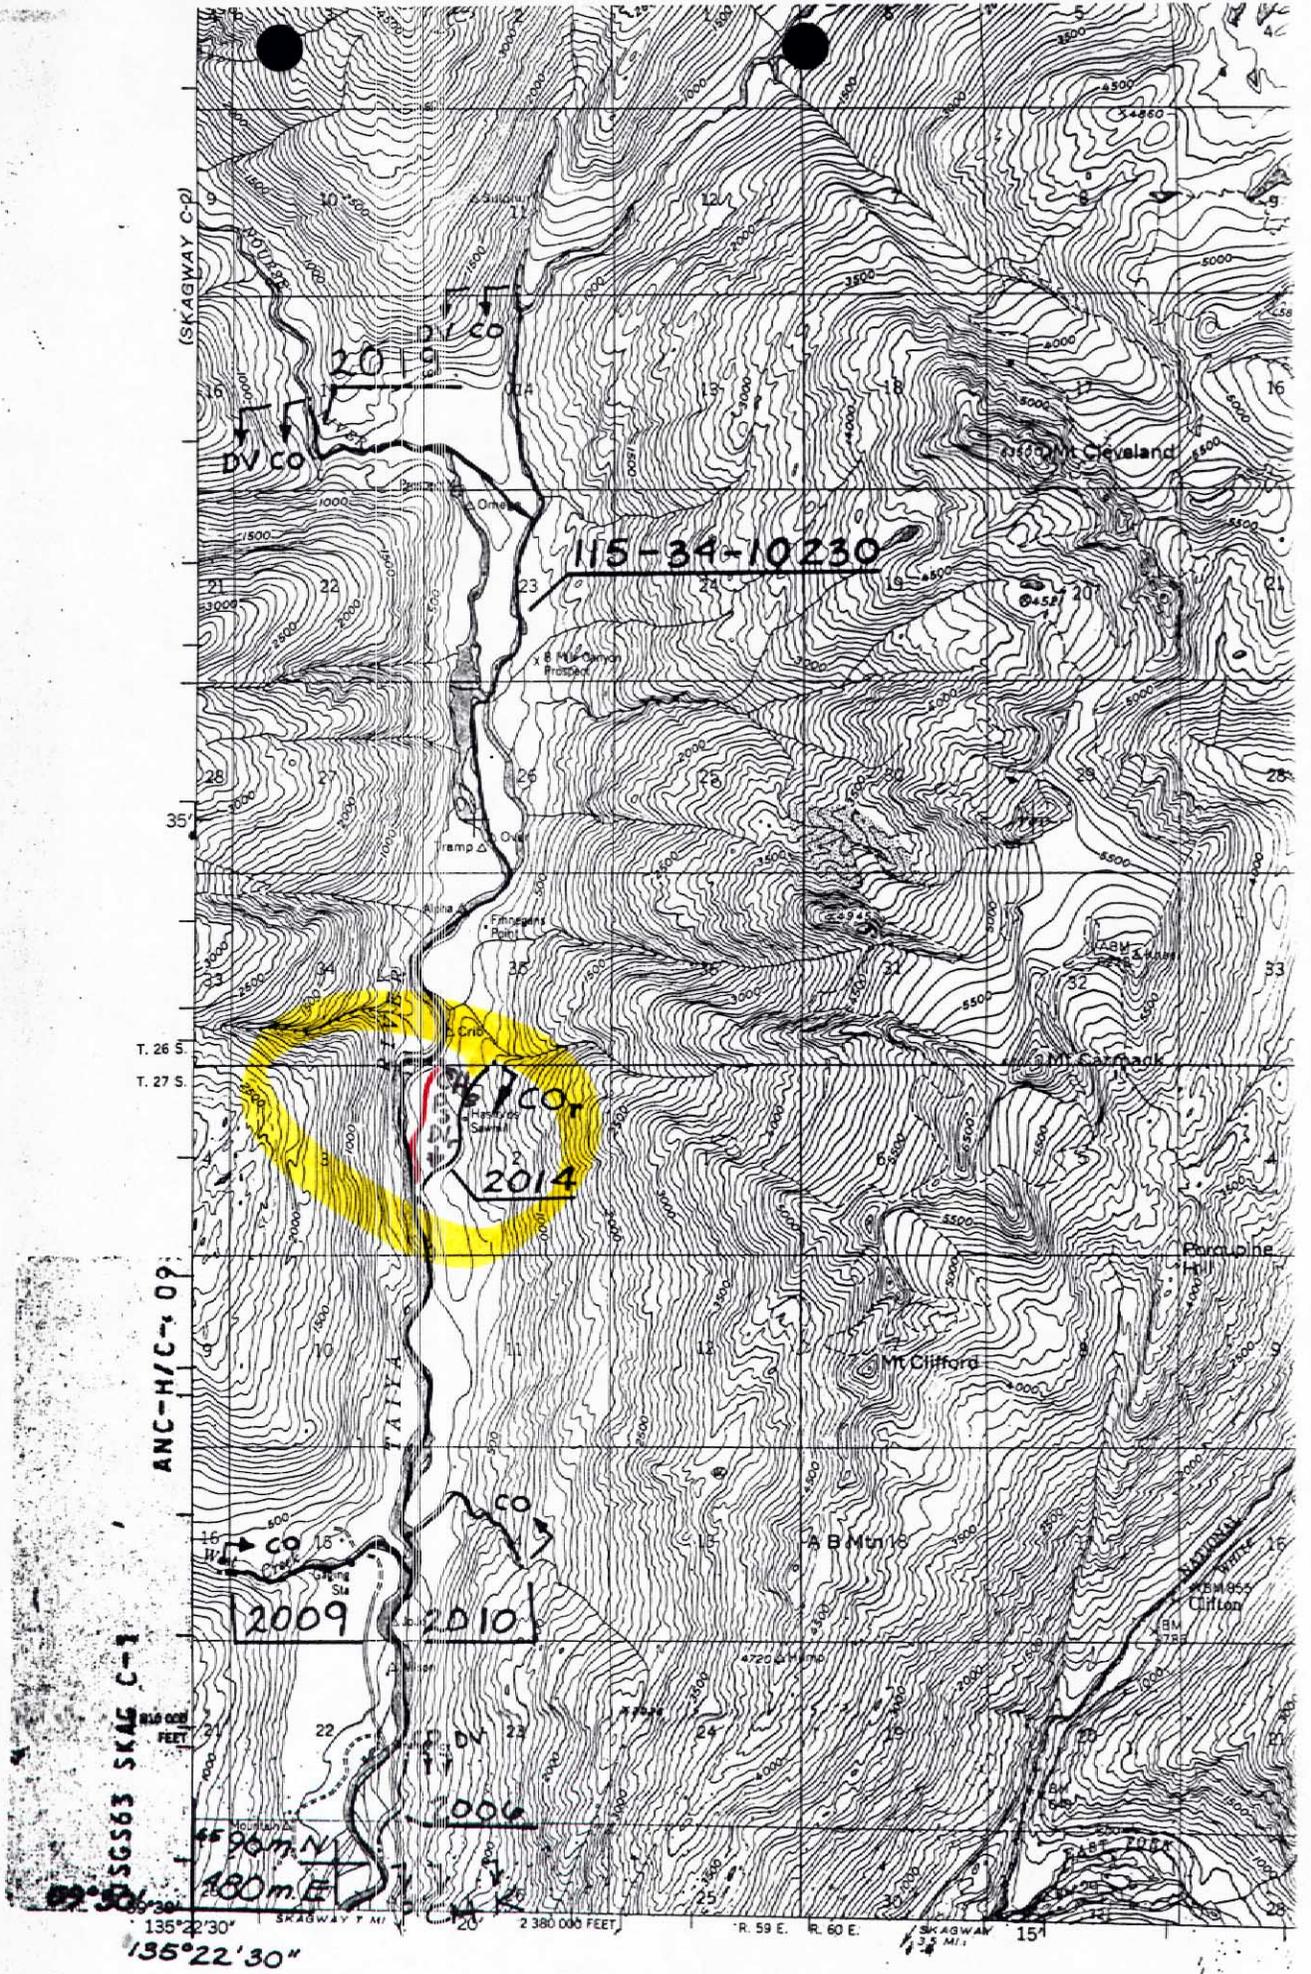

Name of Observer (please print) Randolph Ericksen
