Haines

SUBJECT: 1990 Anadromous
Stream Atlas
Revisions.

Thank you for the opportunity to review the 1990 revisions. The ones I submitted look excellent except for two items:

- 1 Stream 115-32-10260 should be shown as providing spawning habitat for cutthroat trout.
- 2 One more stream (coho rearing) should be added immediately west of stream 115-34-10230-2018.

I have enclosed copies of the original nominations and draft maps with corrections shown.
