Species	Date(s) Observed	Spawning	Rearing	Migration
Coho		X	X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Dead Batter Creek is a small tributary to Cable Creek. Coho spawn and rear in this tributary.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
