Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Forest Service fisheries biologist Jeff Moran and John Edgington documented presence of coho salmon and steelhead in upper Kadake Creek in conjunction with a bridge replacement project and habitat improvement project.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
