Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
2 steelhead trout	7/1/91		X	
2 Dolly Varden char	7/1/91		X	
6 Dolly Varden char	10/3/91		X	
3 cutthroat trout	10/3/91		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Stream at 17.2 mile Craig-Hollis Highway. Intermittent surface flow below highway at low flows. Trapped (1 baited minnow trap) 2 SH & 2 DV in lower end of culvert 7/1/91. Trapped w/6 baited minnow traps upstream of calvert. Nice stream, but evidence of a fair amount of bedload movement during high water events.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
