FI 4/24/92
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
2 coho salmon juveniles 1 cutthroat trout juvenile	6/19/91		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Large beaver dam complex parallel to stream, uses road base for partial foundation; no fish captured in dam area, but many juveniles present in stream pools adjacent; captured 2 coho and 1 cutthroat in 15 minute soak.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
