Local name JETTY CREEK

For Office Use

Nomination # 92 304

Regional Supervisor — Date

Drafted — Date

Species	Date(s) Observed	Spawning	Rearing	Migration
COHO	11/90; 10/91	X	X	X

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Extensive foot survey conducted 10/15, 18, 20/91 – See attached maps. Aerial videotaping on 7/2/91 & 10/21/91 along with groundwork provided info for stream re-routing and coastline changes. Area north & east of Claybuff Point is a series of interconnected lakes. These have not been surveyed to date. Sortyard area contains extensive coho rearing habitat and could have an area (polygon) protection.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

MESSAGE:

FRANK,

YOU WILL BE RECIEVING A NOMINATION PACKAGE FOR AN ELIPSE AT THE ICY CAPE SORT YARD. YOU SHOULD RECIEVE THIS SOMETIME TOMMORROW, 1/16/92.

I MADE A MISTAKE IN DELINEATING THE AREA FOR THE POLYGON. THIS IS ON THE FIRST MAP PAGE FOLLOWING THE NOMINATION FORM. THE POLYGON SHOULD BE MARKED AS SHOWN ON THE MAP ATTACHED TO THIS FAX MESSAGE AND INCLUDE THE SORT YARD AREA ONLY AS DENOTED ON MAPS "C" & "D" OF THE NOMINATION PACKAGE.

PLEASE REPLACE THE INCORRECT MAP WITH A COPY OF THE MAP ATTACHED TO THIS FAX.

SORRY FOR THE CONFUSION. THANKS

ES

PLEASE CALL IF YOU HAVE ANY QUESTIONS.

DEPARTMENT OF FISH & GAME

TO: Frank Rue
Director
Habitat Division
Department of Fish and Game

DATE: January 13, 1992

FILE NO.:

TELEPHONE NO.: 267-2284

SUBJECT: Polygon Nomination for Anadromous Waters Catalog and Atlas

FROM: Lance Trasky
Regional Supervisor
Region II
Habitat Division
Department of Fish and Game

Attached is a nomination for a polygon associated with the sort yard area at the mouth of Carson Creek, near Icy Cape. The area has numerous small channels in which anadromous fish have been documented by the ADF&G. Additionally, the area is still undergoing geological and hydrological changes; many of the channels have changed since the U.S. Geological Survey maps were revised in 1983.

We would like this polygon added to the 1992 revision of the Atlas and Catalog. We plan to further delineate this polygon with an inset at a larger scale for the 1993 revision. Time constraints prohibit us from doing so this year.

Please review the nomination and return it with your decision as soon as possible. Thank you.

Enclosed is the nomination/map package for the area at the Icy Bay sortyard that I talked to you about over the phone. Because it makes sense to designate the area as a polygon, I'm submitting the package to you now.

We continue to work on the road system and drainage structures for the many streams on the Icy Bay area in an effort to get you the nominations no later than next week. Thanks for your help.
