Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of map showing location of mouth and upper points of each species, specific stream reach identified for spawning or rearing, locations of barriers, such as falls.

Comments:

Field surveys conducted in conjunction with timber unit layout with DNR-DOF and the operator. Fish were found above barriers that we earlier believed to block fish passage.
