ovide any clarifying information, including number of fish observed, location of fish rvey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a p showing location of mouth and upper points of each species, specific stream reaches entified for spawning or rearing, locations of barriers, such as falls.

mments:

Fish pass opened in July '90. Sockeye were planted in '89. The system allows access to Coho, Chum, Pinks, Sockeye, and Steelhead. The figures listed in the observation table are based on fish passed through the ladder. There was one stray King, probably from Neets hatchery.
