OBSERVATION INFORMATION

| Species | Date(s) Observed | Spawning | Rearing | Migration | Anadromous |
|-------------|------------------|----------|---------|-----------|------------|
| Coho Salmon | July 28, 1993 | | XXXX | | XXXX |
| | | | | | |
| | | | | | |
| | | | | | |

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments: Don Cornelius and I used a backpack fish shocker to observe coho fry and determine the upstream extent of anadromous fish habitat in tributaries to White River (see blowup of Anadromous fish atlas attached and smaller scale logging unit layout map which shows fish habitat in this and other White River tributaries).
