OBSERVATION INFORMATION

| Species | Date(s) Observed | Spawning | Rearing | Migration | Anadromous |
|-----------------|------------------|----------|---------|-----------|------------|
| coho salmon | 7/9/93 | | X | | X |
| cutthroat trout | 5/11/93, 5/17/91 | X | X | | X |
| Dolly Varden | 5/17/91 | | X | | X |
| | | | | | |
| | | | | | |

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments:

During the spring of 1991 and 1993 I observed adult cutthroat trout spawning in
in this section of stream. During the 1991 visit, I recovered a tagged cutthroat
that was tagged in Chilkat Lake. That fish had to travel through intertidal waters
to reach this site. Juvenile cutthroat and Dolly Varden were trapped at this site
during the spring of 1991. John Palmes and I captured YOY coho fry in this stream
during a visit there this July.
