OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho salmon	10-1-93		✓		✓
Dolly Varden	10-1-93		✓		✓

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments:

This tributary to Sawmill Creek has a recent logging road crossing with a "log culvert". One trap was set above the culvert and two below for 1½ hrs. The trap above caught 1 coho fry. The traps below caught a total of 2 coho fry and 1 Dolly Varden. This is a separate tributary from the ones Kip is nominating. 1993 was an extremely dry year. It is likely that this stream supports more fish in other years.

Name of Observer (please print) Randy Ericksen

Date: 10-15-93 Signature: Randy Ericksen

Address: ADF&G - Sport Fish Division
P.O. Box 330, Haines Ak 99827

Sawmill creek (cont'd)

Photo #9 looking N.E.
Foreground: creek w fry (Dolly)
background: bank w slagging & cut timber (Lot 15?)

Creek forks ~ 25 yds above this site. "E. fork" to Henderson's "W fork" is dry - again due to low water. W. fork crosses Rd thru culvert to N side of Rd. pool of standing water at culvert - creek dry

culvert #2

culvert #3 Lot 13
Trapped 1 Coho 10 yds S. of Road. Photo # 10 see culvert (R) & "Lot 13" sign (L). photo # 11 culvert, creek & location of fry

culvert #4 @ Lot 12 creek dry

culvert #5 photo #12 From Rd. (survey stakes #17, #15 in creek)
Lot 10 shallow.

Lot #9 there is seepage come from the N. side of the Rd. The resident in the House across the street tells me there is good flo in the spring. it's slow & shallow now but otherwise looks suitable to support fry

culvert #6 Last intersection on comstock. Easement Rd. for development
Coho fry (3) 15 yds below culvert, smolt.
Lot 6
photo #13 creek, site of fry, truck on easement Rd (Street?)
photo #14 from corner looking S. Oak to left of Rd. #15 from culvert on N. side of Rd.
