Subject: Anadromous Stream 114-25-022

Dean, thanks for the phone call the other day regarding the above stream. I looked again at the nomination form and figured out what I was attempting to do.

Apparently this stream (114-25-022) is in our Fishery Data Base (IFDB) as an anadromous stream. But, in reality it does not exist. 114-25-025 (our files) or 114-25-10250 (your files) does.

So, it appears that you should do nothing with this nomination form. And, I will make sure it disappears from our data base, and make sure any escapements for this stream will be moved to 114-25-025 (114-25-10250)

Talk to you later, joe
