 Nomination for Waters
 Important to Anadromous Fish

AWC Volume SE SC SW W AR IN USGS Quad Ketchikan B-6

Anadromous Water Catalog Number of Waterway 101-47-1011 *Needs new number*

Name of Waterway _____ USGS name _____ Local name _____

Addition Deletion _____ Correction _____ Backup Information _____

For Office Use

Nomination # <u>97 108</u>	<u>Janaquand Sanders</u>	<u>1-2-97</u>
Revision Year: <u>97</u>	Regional Supervisor <u>OKLLT</u>	Date
Revision to: Atlas _____ Catalog _____	<u>ED Wain</u>	<u>2/10/97</u>
Both <input checked="" type="checkbox"/>	<u>2. Arone</u>	<u>12/9/97</u>
Revision Code: <u>A-2</u>	Drafted	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
<u>Pink Salmon</u>	<u>9/22/95</u>	<u>X</u>		<u>X</u>	<u>X</u>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Stream located parallel to Pt. Susan Road, about 1 mi NW of Totem Bight and 6 miles NW of Ketchikan. Observed one adult pink salmon in stream.

Local homeowner near mouth of stream says he observed about 50 pinks and 5 adult chums in stream last week. This was his first year there, but he also reported that others in neighborhood have told him that in some years this stream has about 300 adult pink salmon. Habitat (water quality) is being impacted, but would be suitable for several hundred adult pink salmon.

Name of Observer (please print) Jack Gustafson *10/6/95: Blair Oakes called. Said about 6 more chums and 6-8 pinks have just moved into stream*

Date: 9/22/95 Signature: Jack Gustafson

Address: JADFG 2030 Galeval Dr. Ktn. 99901

ALASKA DEPT. OF FISH & GAME
 JAN 05 1997

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.B70

Signature of Area Biologist: Jack Gustafson Rev. 7/93
