OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Coho Salmon	8/3/1996 & 9/20/96		22		<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

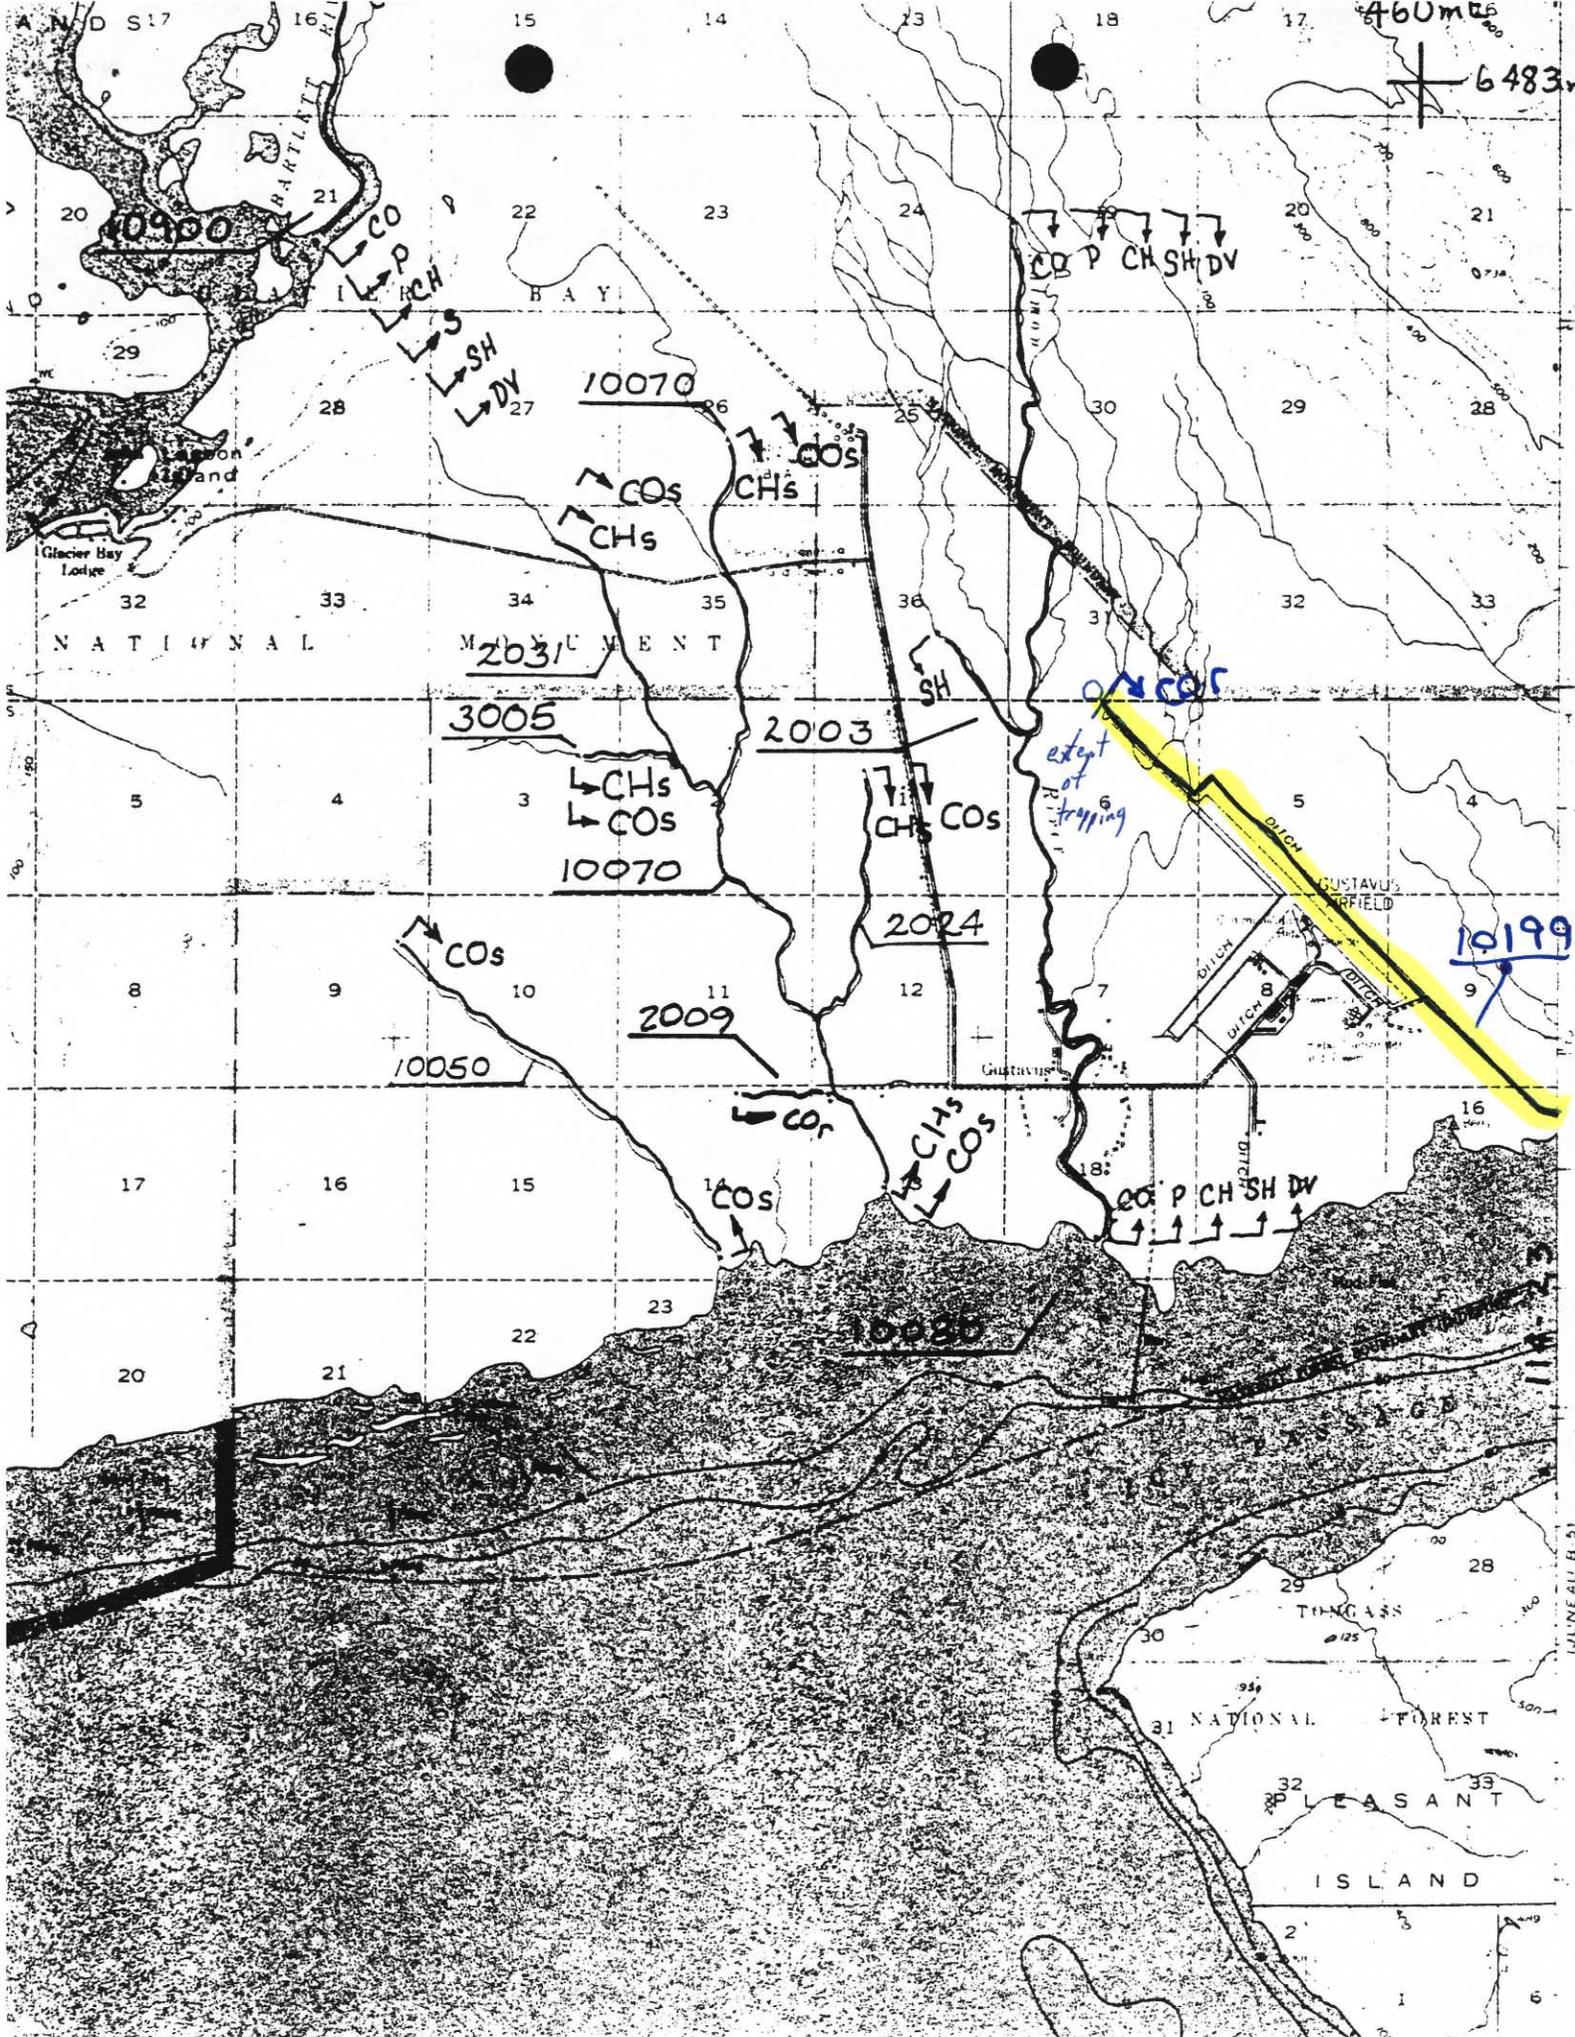

Comments: Two baited minnow traps were placed in the ditch at the end of the NW runway on 8/3/96. After an approximately 3 hour soak 5 coho salmon fry were captured. On 9/20/96 four minnow traps were placed in this ditch just downstream and upstream of the Rink Creek Road culvert. After an approximately 2 hour soak 17 coho salmon fry were captured. This ditch terminates in an active DOT gravel pit, coho fry were captured immediately below this gravel pit.
