OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
<u>Sockeye</u>	<u>8-11-93</u>			<u>8 plus a few others</u>	<u>Yes</u>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: 8 sockeye salmon were observed being caught out of crab creek near the Craig-Klawock Bridges. More were observed swimming up the creek.

Name of Observer (please print) Andy Mathews Fish & Wildlife Officer
 Date: 9-21-93 Signature: Andy Mathews
 Address: Box 903
Craig AK 99921

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

Signature of Area Biologist: Jack Gustafson

Add SPECIES To CRAB

5 Add Sockeye; Upper extent of use unknown
