Subject: King Cove airport changes.

J,

Here is photo with suggested renumbering. Let me know if it doesn't come through OK. I did it within Word right in the email. Basically, renumber 283-42-10500-2001-3025-4019-5002. Renumber to 283-42-10500-2001-3025-4020. And renumber 283-42-10500-2001-3025-4019-5002-6001 to 283-42-10500-2001-3025-4020-5013. Based on the flows in the streams at the runway and the photo I think the logical dividing point for streams 4019 & 4020 is their common fork.

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Pink Salmon			ALASKA DEPT. OF FISH & GAME	x	<input checked="" type="checkbox"/>
			JUL 21 2001		<input checked="" type="checkbox"/>
			HABITAT REGION II		<input type="checkbox"/>
			AWG RESTORATION DIVISION		<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Add stream 283-42-10500-2001-3025-4019 with Pink presence per attached information.

Attached are stream surveys of 283-42-10500 dating back to 1992. We do not have a breakdown of how many fish were observed in each tributary. Each year however a considerable percent of the fish (pink salmon) were observed in 2001 up to about 1-200 yds from the end of the runway.
