### MEMORANDUM

TO: J. Johnson  
Habitat Biologist

FROM: Michael Wiedmer  
Habitat Biologist  
Region V

DATE: October 26, 2006

SUBJECT: 2006 Klutuk Creek tributary nomination

Attached is a Fish Distribution Database/Anadromous Waters Catalog (FDD/AWC) nomination for an unnamed, uncataloged tributary to Klutuk Creek (325-30-10100-2141). In 2006, our freshwater fish inventory (Wiedmer 2006) of the Nushagak/Mulchatna drainage yielded 1 fish sampling effort in this unnamed stream.

This sampling effort supports adding in the FDD/AWC rearing Chinook and coho salmon throughout the sampled reach (Figure 1). These species and life stages occur in Klutuk Creek immediately adjacent to the sampled reach.
