Site Information Station: FSN0606E07 Date Observed: 8/7/2006 Legal Desc.: Sec 11, T. 4 N., R. 55 W., S.M. Latitude: Longitude: Datum:

Stream Depth (m) Width (m) Water Temp. (C): Station Coordinates 60.45189 -158.77306 WGS84

Parameters: OHW Stream Stage: Medium

Wetted Dominant Substrate:

Rosgen Channel Type:

Station Comments: No aquatic habitat information, aerial observation only.

Observation Information

Life History: Obligate anadromous population

Species/Lifestage: sockeye salmon adult spawning Samp. ID (# Fish): A (2)

Key to Samp. ID

Samp. ID: A Method: Visual Observation, Helicopter

refer to # 06-925
Add Sockeye salmon spawning to newly charted stream
325-30-10100-2249-3142-4360

Additional Comments: This nomination supports adding to the FDD spawning sockeye salmon to this location. Another sockeye salmon spawning pair was observed 2 km downstream.

MEMORANDUM

TO: J. Johnson
Habitat Biologist

FROM: Michael Wiedmer
Habitat Biologist
Region V

DATE: November 1, 2006

SUBJECT: 2006 Tikchik River tributary nominations

Attached are Fish Distribution Database/Anadromous Waters Catalog (FDD/AWC) nominations for an unnamed, uncataloged tributary to the Tikchik River (325-30-100-10100-2249-3142). In 2006, our freshwater fish inventory (Wiedmer 2006) of the Nushagak/Mulchatna drainage yielded 2 visual observations of spawning sockeye salmon and 1 fish sampling event on this stream.

These observations and sampling effort support adding to the FDD/AWC spawning sockeye salmon (Figure 1) upstream to Station FSN0606E07; rearing coho salmon (Figure 2) upstream to Station FSN0606E06; and rearing Dolly Varden (Figure 3) upstream to Station FSN0606E06.
