DATE: November 7, 2006

SUBJECT: 2006 Old Man Creek tributary nominations

Attached are Fish Distribution Database/Anadromous Waters Catalog (FDD/AWC) nominations for an unnamed tributary (325-30-10100-2202-3075-4445) to Old Man Creek. In 2006, our freshwater fish inventory (Wiedmer 2006) of the Nushagak/Mulchatna drainage yielded 2 fish sampling efforts on this stream. A previous inventory (ADF&G 2006, Wiedmer 2003) produced another fish sampling effort downstream.

Collectively, these efforts support extending in the FDD/AWC rearing coho salmon (observed at 3 of 3 sampled locations, Figure 1) upstream from the currently cataloged upper limit to Station FSN0602E03.
