OBSERVATION INFORMATION

| Species     | Date(s) Observed | Spawning | Rearing | Present | Anadromous                          |
|-------------|------------------|----------|---------|---------|-------------------------------------|
| chum salmon | 1997 - 2006      |          |         | X       | <input checked="" type="checkbox"/> |
| pink salmon | 1997 - 2006      |          |         | X       | <input checked="" type="checkbox"/> |
|             |                  |          |         |         | <input type="checkbox"/>            |
|             |                  |          |         |         | <input type="checkbox"/>            |
|             |                  |          |         |         | <input type="checkbox"/>            |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers, etc.

Comments:

Add ~~chum & pink salmon~~ presence to existing stream, ~~chum & pink salmon have been counted thru weir since 1997.~~

per hand drawn map from B. Murphy
