**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. **Attach a copy of a map showing location of mouth and observed upper extent of each species,** as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**311-30.06. Divide Creek.** Aerial surveys have been conducted on this system since the **1960s** and observers have noted the presence of **sockeye, coho and chinook salmon**, which has been published in our ADF&G Annual Salmon Management Reports (AMR).  
**Please add coho (2000,2001,2002,2003,2004,2007) salmon; see attached map.**  
Add coho salmon present to 311-32-10600
