OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
sockeye salmon	published in AMR, years below	XX			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

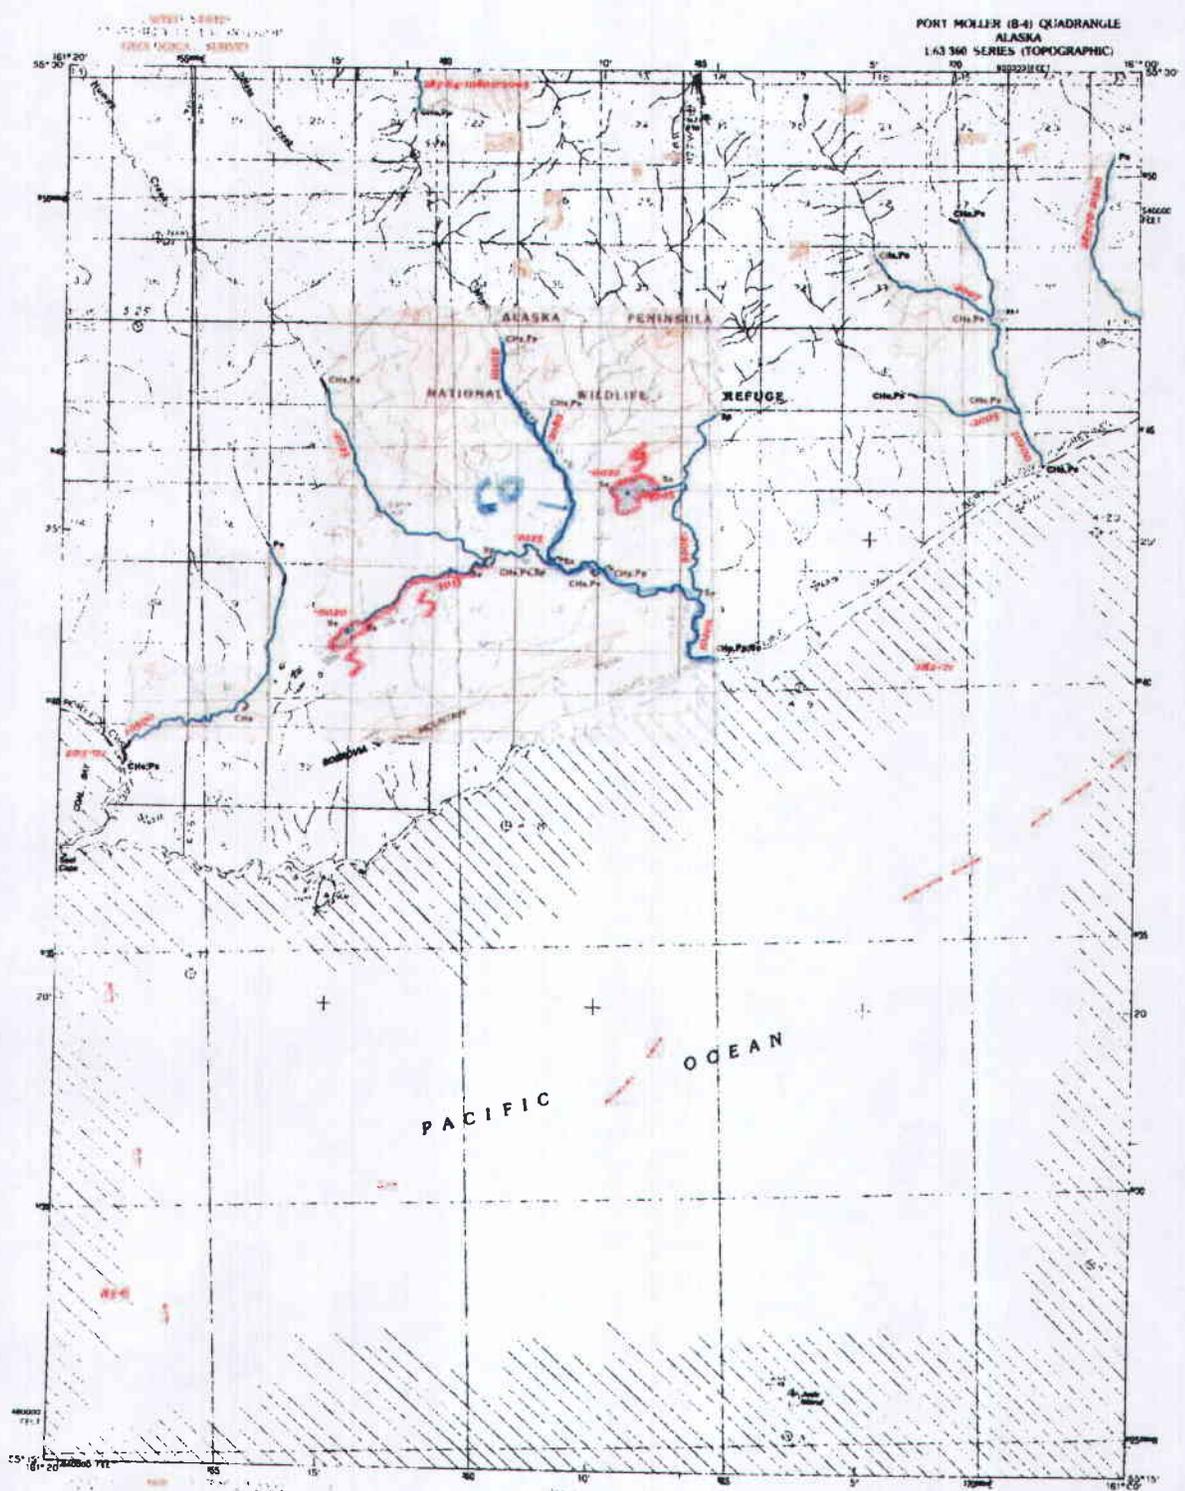

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
283-70.01 Mino Creek. Aerial surveys have been conducted on this system since the **1960s** and observers have noted the presence of pink, sockeye, coho, and chum salmon, which has been published in our ADF&G Annual Salmon Management Reports (AMR).
 Inclusion of Ss in (283-70-10100-2006-3005-0010) is supported by historic information. Sockeye salmon escapement was first noted in 1969. Escapement counts included with all sockeye salmon escapement into the Mino Creek drainage are published in the AMR for these years: 1969, 1970, 1971, 1975, 1976, 1977, 1978, 1979, 1980, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2008.
See attached map.

Name of Observer (please print): on file; name and date is published in AMR
 Signature: _____ Date: _____
 Agency: ADF&G - CF
 Address: P.O. Box 129
Sand Point, AK 99661

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: Aaron Poetter Date: 11-24-08 Revision 05/08
 Name of Area Biologist (please print): Aaron Poetter, FBIII
