Nomination # 100590		Fisheries Scientist	7/14/10 Date
Revision Year: 2011		Habitat Operations Manager	7/14/10 Date
Revision to: Atlas ____ Catalog ____ Both X		AWC Project Biologist	22 Jul 10 Date
Revision Code: B-1, B-2, B-6		Cartographer	8/24/10 Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Coho Salmon	2008-2009	Y		Y	x
Chum Salmon	7/12/09-8/10/09			Y	x
Chinook Salmon	8/13/08			Y	x
Sockeye Salmon	2008-2009	Y		Y	x
Pink Salmon	2008-2009			Y	x

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes, etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers, etc. Add Chum salmon present to 324-10-10150-2183-3010

Comments: Pink Salmon

Add coho salmon spawning to streams 2183-3010

The species above were documented by R2 in 2008 and 2009 by aerial spawning surveys and at an escapement tower (2009) located near the mouth. Spawning sockeye salmon were found throughout the stream within their current Anadromous Waters Catalogue distribution. Spawning coho salmon were found throughout the entire stream, four of which were located beyond the current extent of anadromy. Twenty Chinook salmon carcasses were counted in the lower portion of the stream in 2008. Three pink and four chum salmon adults migrated past the escapement tower in 2009. This nomination provides back-up information for COp and Sps, which are already listed for portions of this stream; adds the lifestage COs; adds chum (CHp), pink (Pp) and Chinook (Kp) salmon to the catalogued stream; and extends the extent of anadromy of the stream with COs. See attached maps for the distribution of each species-lifestage. No table is included with this nomination because there are more than 1000 records. Refer to the attached GIS shapefile for site-specific location and fish observations.

Add Chinook Salmon present to -3010

R2 observer(s): E. Smith, G. Sandone, S. Dotomain, J. Estrada, L. Gasek, A. Wassillie, C. Baluta, R. Parks, B. Nelson and S. Anderson.

Name of Observer (please print): HDR, R2; Prepared by Betsy McGregor
