Nomination #	<u>11-035</u>	<u>[Signature]</u>	<u>6/13/11</u>
Revision Year:	<u>2012</u>	Fisheries Scientist	Date
Revision to:	Atlas _____ Catalog _____	<u>[Signature]</u>	<u>6/13/11</u>
	Both <u>X</u>	Habitat Operations Manager	Date
Revision Code:	<u>A-2, C-9</u>	<u>[Signature]</u>	<u>16 DEC 10</u>
		AWC Project Biologist*	Date
		<u>[Signature]</u>	<u>9/28/11</u>
		Cartographer	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Juvenile Coho Salmon	11/11/2010		X		<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Salomie Creek Road MP 0.9. The culvert is a 24-inch diameter steel culvert located at 57°41'1.617"N, 152°33'43.155"W in an unnamed tributary to Stream No. 259-22-10030-2003. The culvert outlet is buried under soil and the stream flows across vegetation before entering a defined stream channel. I set one baited minnow trap below the culvert in pool habitat. The trap fished for one hour. The trap captured three young-of-year coho salmon and one Dolly Varden (Figures 1 and 2). The average stream channel width is two feet and the slope is < 2%. The geomorphology of the unnamed stream is Rosgen E-5.

Add new stream w/ coho salmon REARING, more hydro for 2003 and 10090 is 3020 to match being? NHD

Name of Observer (please print): Will Frost, Habitat Biologist
 Signature: [Signature]
 Agency: ADF&G, Division of Habitat
 Address: 333 Raspberry Road
Anchorage, AK 99518

Date: 11/16/2010

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
