IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

During a foot survey, I observed about 5 adult pink salmon in the unnamed tributary to Salonie Creek above a culvert on the Chiniak Highway (KOD05-CR39) (Figures 1 and 2). In October 2010, I trapped one juvenile coho salmon near the headwater of the stream adjacent to the Salonie Creek Road.

Add new stream w/ pink salmon present & lake
