OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Pink Salmon	9/11/2011	X			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

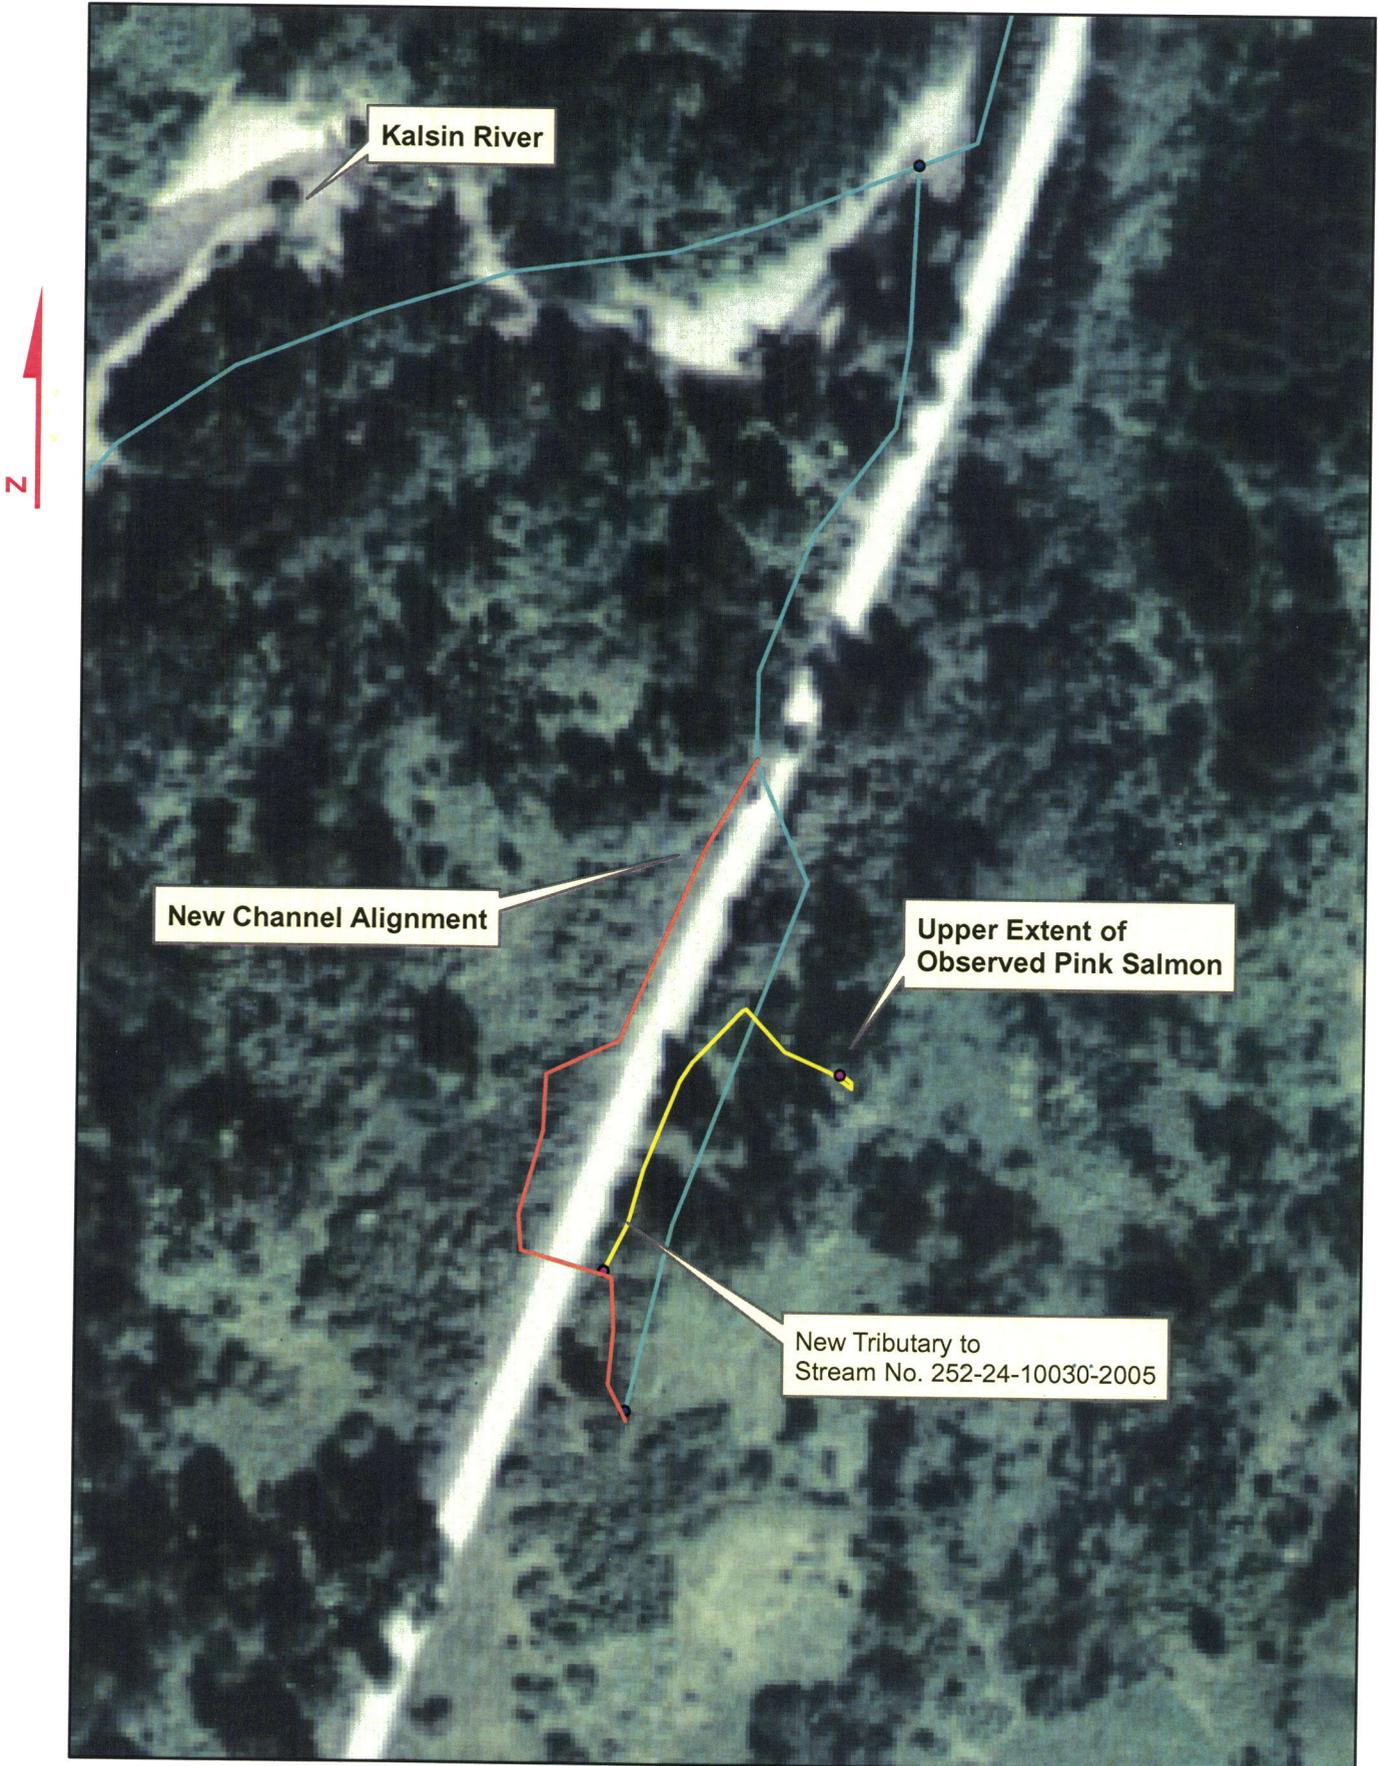

During a foot survey, I observed about 10 adult pink salmon in the unnamed stream above the Pasagshak Highway mile post 1.2 (Figures 1 and 2). Stream Number 259-24-10030-2005 was moved during the 2009 Pasagshak Highway re-alignment project. The stream now crosses under the highway in a new culvert about 0.1 miles south of the old crossing. The old crossing was removed. Reposition are and lower upper and lower
pts for 259-24-10030-2005 add new stream
259-24-10030-2005-3021 add pink salmon project to

Name of Observer (please print): Will Frost, Habitat Biologist
 Signature: [Signature]
 Agency: ADF&G, Division of Habitat
 Address: 333 Raspberry Road
Anchorage, AK 99518

Date: 9/16/2011 259-24-10030-2005

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
