Sample ID: (B) Sample Gear: Minnow Trap

*Add coho salmon rearing to creek
and pink salmon present*

Additional Comments: This information was collected as part of ADF&G's Fish Passage Assessment project. This nomination provides back up information for the presence of coho salmon in AWC Stream #283-34-10250 and the addition of coho rearing. This nomination also notes the presence of adult pink salmon carcasses along the stream bank from bear activity and would recommend further investigation to add pink salmon to this stream. Culvert appears to have been replaced recently and tried to be embedded. Few grade points upstream. Stream likely aggraded by road prism. Dozens of pink carcasses and bear sign on banks. Culvert is downstream of CBR04 (30103339) Trap A set 50 feet upstream from culvert inlet, Trab B set 70 feet downstream from outlet.
