OBSERVATION INFORMATION

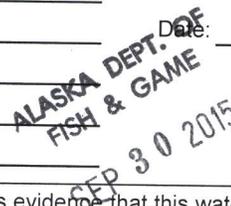

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Juvenile Coho	8/13/2015		X		<input checked="" type="checkbox"/>
Dolly Varden	8/13/2015			X	<input type="checkbox"/>
Pink Salmon	9/9/2015	X			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
<u>Add new creek w/ pink salmon spawning and coho salmon rearing</u>					

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

During an ADF&G fish survey in support of the Anton Larson Bay Road extension, we used an electrofisher in Chalet Creek to captured juvenile coho salmon (IDENT 199). we used a Garmin GPS to map the creek downstream from the proposed road crossing. In September 2015, we observed about 75 pink salmon spawning in the lower reach (IDENT 207) (Figures 1 and 2).

Name of Observer (please print): Will Frost, Habitat Biologist  
 Signature: [Signature] Date: 9/17/2015  
 Agency: ADF&G, Division of Habitat  
 Address: 333 Raspberry Road  
Anchorage, AK 99518

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
