OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: The outlet of Lake Andrew was open from at least August 20 - Sept 22 1994 allowing Salmon to Access The feeder streams. The outlets Location is about 50yds further East than shown on the original map

Name of Observer (please print) Robert Benter ALASKA DEPT. OF FISH & GAME
 Date: 10/7/94 Signature: [Signature]
 Address: P.O. Box 1670
Kenai AK 99611 OCT 19 1994
 REGION II HABITAT AND RESTORATION DIVISION

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.
