Revision Code: <u>B-1</u>	Drafted	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho salmon	9/2 - 9/25 1994	✓	✓		✓
Dolly Varden	9/2 - 9/25				✓
Sockeye Salmon	9/2				

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Seven foot surveys were conducted from 9/2 - 9/9. A single sockeye was observed on 9/2, as well as numerous Dolly Varden and coho. An aerial survey using a helicopter was conducted on 9/25/94. Counted 250 adult coho salmon. Water clarity was fair.

DIVISION

Mr. Prokopowich:

Enclosed are some nominations for revision to the *Catalog of Waters Important to the Spawning, Rearing or Migration of Anadromous Fishes* in response to Edward Weiss's letter dated September 2, 1994 (copy enclosed). My nominations are based on work I conducted this summer from August 22 to September 26, along the coastal waters of the Alaska Peninsula from Wide Bay to Yantarni Bay. As the ADFG Area Biologist for that area, please evaluate nominations and sign off on the forms, if appropriate.

I realize I have missed the November 1 deadline stated in the letter. If it is too late for these nominations to be considered for the 1994 revision, please consider them for inclusion in the 1995 revision.

I appreciate your help on this matter. If you need any additional information, please write, or call me at 246-3442.

Sincerely,

Mary A. Faustini
Fishery Biologist
