USGS Quad

Anadromous Water Catalog Number of Waterway

Name of Waterway   USGS Name  Local Name

Addition  Deletion  Correction  Backup Information

For Office Use

Nomination #	<u>97 014</u>	<u>[Signature]</u>	<u>11/4/95</u>
Revision Year:	<u>-97</u>	Regional Supervisor	Date
Revision to:	Atlas _____ Catalog _____	<u>[Signature]</u>	<u>12/6/96</u>
	Both <u>X</u>	AWC Project Biologist	Date
Revision Code:	<u>C-1</u>	<u>[Signature]</u>	<u>12/10/96</u>
		Drafted	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Based on my field inspections and reviews of recent aerial photographs, I believe the current edition of the Anadromous Waters Atlas incorrectly depicts the outlet of Lily Lake (local name). Stream number 252-33-10005 is shown as the outlet of the lake (252-33-10005-0010). In reality, stream number 252-33-10010-2004 is the outlet of the lake. I recommend redrafting the Atlas as shown on the attached map.

ALASKA DEPT. OF  
FISH & GAME

DEC 05 1996

Name of Observer (please print)

Michael Wiedmer, Habitat Biologist

Date: 12/4/96
