OBSERVATION INFORMATION

| Species        | Date(s) Observed | Spawning | Rearing | Present | Anadromous                          |
|----------------|------------------|----------|---------|---------|-------------------------------------|
| Sockeye salmon | 2006             |          |         | X       | <input checked="" type="checkbox"/> |
|                |                  |          |         |         | <input type="checkbox"/>            |
|                |                  |          |         |         | <input type="checkbox"/>            |
|                |                  |          |         |         | <input type="checkbox"/>            |
|                |                  |          |         |         | <input type="checkbox"/>            |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**Comments:** ADF&G radio telemetry data supports adding presence of sockeye salmon to 335-20-16600-2830-3089

Name of Observer (please print): Doug Molyneaux  
 Signature: [Signature]  
 Agency: ADF&G  
 Address: 333 Raspberry Rd  
Anchorage, AK 99518

Date: 8 May 2007

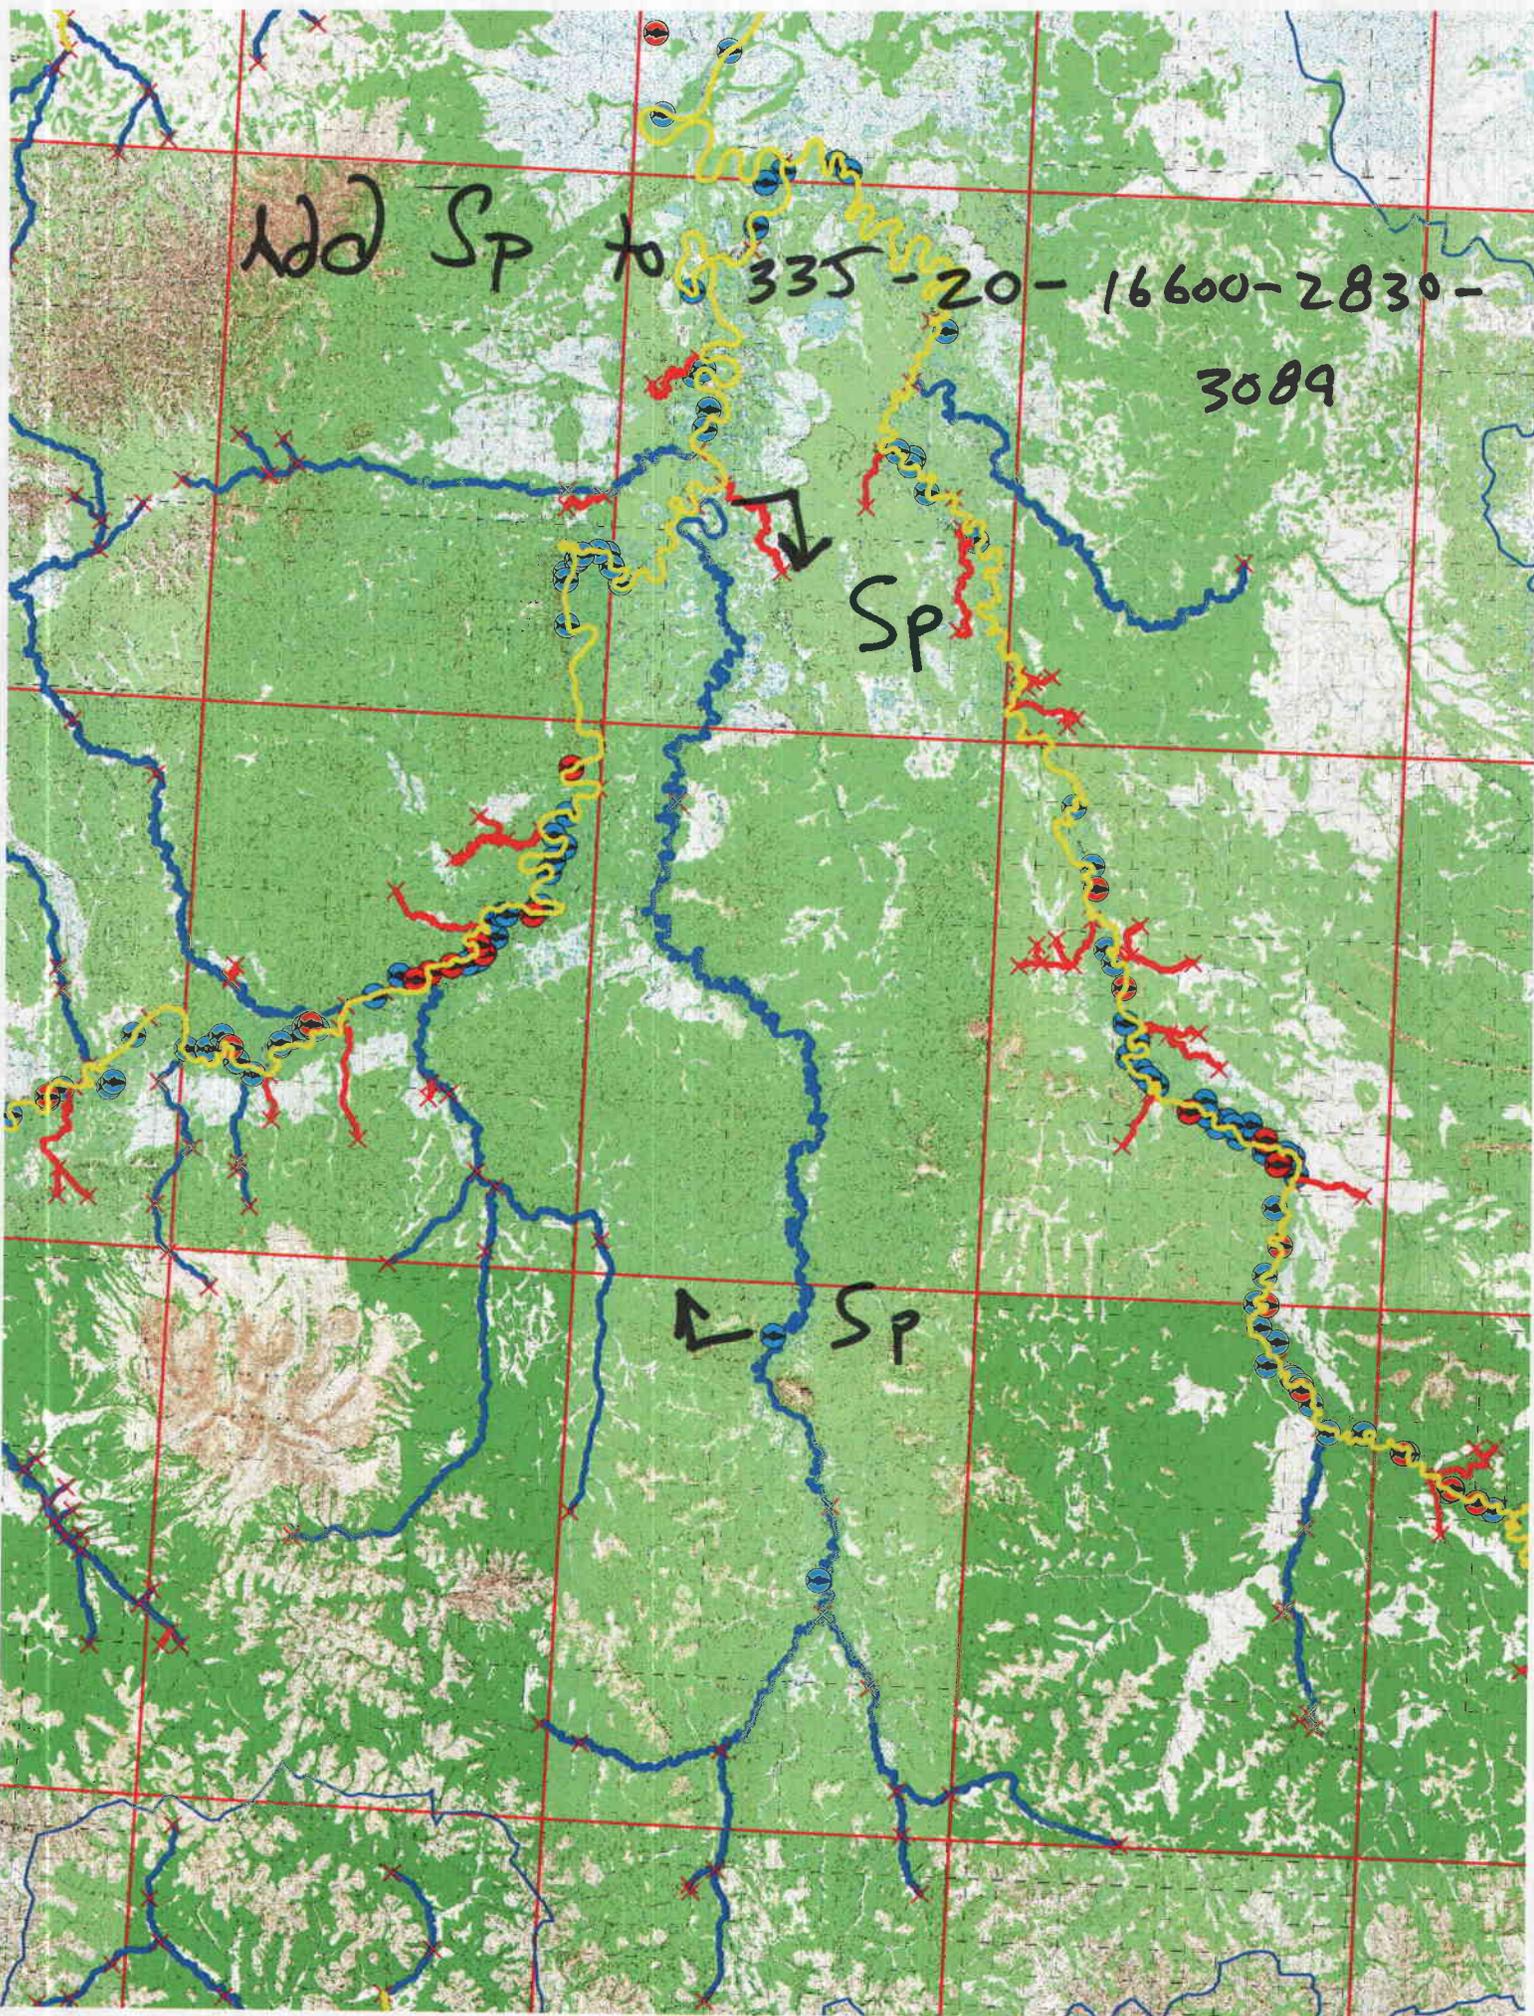

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Fish Distribution Database.
