

Sawmill Creek (Stream No. 111-40-10100-2036) Side Channel Nomination
Figure 1 Map of Area

Key

| Point # | Location | Description |
|---------|--------------------|-------------------------------|
| 1 | 58.3682, -134.4671 | Confluence with Sawmill Creek |
| 2 | 58.3693, -134.4679 | Confluence with Lemon Creek |

On 8-3-10 I tracked this side channel to Sawmill Creek. Many juvenile coho salmon were observed (40-70mm), and there are no barriers to fish passage between Sawmill Creek (58.3682, -134.4671) and Lemon Creek (58.3693, -134.4679) in this side channel. This channel is very developed and comparable in size to the main channel of Sawmill Creek.
